

REPUBLIC OF
SLOVENIA

MINISTRY OF LABOUR, FAMILY
SOCIAL AFFAIRS AND EQUAL
OPPORTUNITIES

NETWORK

OF SOCIAL ASSISTANCE PROGRAMMES,
PROGRAMMES FOR DISABLED PERSONS
AND PROGRAMMES TO SUPPORT FAMILIES

INTRODUCTION

Here is a new leaflet which includes the addresses of providers of various programmes in the areas of welfare security, family care and protection of people with disabilities. These are providers that provide various forms of assistance to individuals and groups who find themselves in need in life in various ways and need professional help.

In addition to tasks carried out within the framework of public services, many tasks are also successfully carried out by non-governmental organisations that respond more easily and quickly to the needs arising from local environments. Non-governmental organisations also take the initiative to provide various social welfare activities which are co-financed by the ministry on the basis of the established public interest.

The social assistance programmes are intended for the prevention and solution of social hardships of individual vulnerable groups of the population (in certain cases for the maintenance of the acceptable social situation of individuals for which the solution to the problems cannot be expected) and they complement the social welfare services. The programmes are implemented based on the verification or guidelines published in the public calls for tender proposals for their (co)financing and they are designed to take into account the characteristics and needs of individual target groups of users and they are derived from the particular features of the environment and area of implementation.

Networks of programmes are designed for individual areas or individual target groups, namely in the area of prevention of violence, help for victims of violence and work with the perpetrators of violence, addiction, mental health, aid to the homeless, assistance to children and minors deprived of adequate family life and to minors with problems in growing up, assistance to elderly persons who need everyday support, support for independent living of disabled persons, psychosocial assistance to children, adults and families, social integration of Roma, prevention and correction of social hardships in other vulnerable groups.

Since 1993, the Ministry of Labour, Family, Social Affairs and Equal Opportunities has regularly co-funded various programmes (mostly programmes of non-governmental organisations) through annual calls for proposals, thus ensuring greater professionalism, professional treatment and the employment of a large number of experts.

In 2024, the Ministry of Labour, Family, Social Affairs and Equal Opportunities co-finance 187 different social assistance programmes and allocates more than EUR 23,000,000.00 to this end.

In the framework of family support programmes, the ministry co-finance 12 providers of content for family centres in the amount of EUR 844,686.00.

In total, the Ministry of Labour, Family, Social Affairs and Equal Opportunities allocates approximately EUR 25 million of budgetary funds annually to the aforementioned programmes. The co-financed programmes employ mostly professional workers, co-workers and lay people. Their work is successfully complemented by volunteers; over 13,000 volunteers participated in the last year.

The ministry also devotes special attention to people with mental health problems. In cooperation with the Ministry of Health, it has established at the national level:

- a network of 9 advocates protecting the rights, interests and benefits of persons placed in a protected department of a social welfare institution, a department under special supervision in a psychiatric hospital or in a controlled treatment programme;
- a network of 27 community coordinators working within the social work centres.

In the field of prevention of violence within the public service, there are also 9 crisis centres for adolescents, 2 crisis centres for children and 2 crisis centres for adult victims of violence. These crisis centres operate on the basis of the Domestic Violence Prevention Act which stipulates the formation of regional services within social work centres, which include, in addition to crisis centres, the intervention services and the regional coordinator for the prevention of violence.

The leaflet in front of you is published on the website:

2. SOCIAL INCLUSION PROGRAMMES FOR DISABLED PERSONS

Social inclusion programmes are social programmes aimed at supporting and maintaining work abilities of persons with disabilities. The target group of persons involved in social inclusion programmes are persons with disabilities defined in Article 35 of the Vocational Rehabilitation and Employment of Disabled Persons Act (persons with disabilities who are not employable due to disability, which is determined by the employment office after the completion of vocational rehabilitation with the decision on employability from the previous Article, disabled persons of category I with the decision of the Pension and Disability Insurance Institute of Slovenia without the right to disability pension under the act governing pension and disability insurance, and persons with physical and mental disorders who do not have the possibility to be included in the relevant social welfare services). The programmes are implemented by selected providers at their registered offices and at different locations.

VIII PROGRAMMES FOR ROMA

The subject of co-financing of multi-purpose Roma centres projects is the establishment and operation of multi-purpose Roma centres (hereinafter: MPRC) in which activities aimed at strengthening and improving the socio-economic status of members of the Roma community in the Republic of Slovenia, improving their social integration and establishing cooperation and trust with the majority population of the local community will be implemented.

The purpose of the activities to be implemented in multi-purpose Roma centres is to reduce the risk of poverty, raise social competences, empower and move towards the labour market and active engagement in society. Within the framework of MPRC projects, activities will be carried out: content for strengthening the socio-economic status of members of the Roma community (acquiring new skills and competences that enable a more successful appearance on the labour market, etc.), raising the quality of life, promoting and strengthening integration into the wider community and for building trust and cooperation with the majority population.

X PROGRAMMES TO SUPPORT THE FAMILY

1. FAMILY CENTRES

Family centres represent a place for the socialising of different generations, a place for quality upgrading and strengthening of the individual's social roles, support in easier reconciliation of family and professional life and space for exchange of good practice and positive experiences.

Compulsory content provided by family centres are:

- Providing a place for informal socialising with the purpose of meeting or informal transfer of various day-to-day positive practices among children, adolescents, adults or families.
- Educational and practical workshops on the development of positive parenting.
- Carrying out holiday activities for children, occasional child care organised.
- Additional content selected by the applicant in line with the purpose and objectives of the public tender.

Family centres provide services to users **free of charge**.
