

Slovenian Presidency
of the EU Strategy
for the Danube Region

Towards Knowledge-driven Society and Professions of the Future

17 - 18 May 2023

Congress centre Brdo, Slovenia

EUSDR Conference

“Towards Knowledge-driven Society and Professions of the Future”

17–18 May 2023

Brdo Congress Centre (“Splendens Hall”), Brdo pri Kranju, Slovenia

Brdo + ONLINE (Zoom platform)

[Register here](#)

The acceleration of green and digital transitions will steer the transformation of societies (including the economy subsystems) in the EU and Danube region. The labour market and employment opportunities will follow suit. Slovenian EUSDR Presidency, therefore, devotes attention to the expected transformation of societies, the role of knowledge in them, professions of the future, mobility of the labour force, brain drain and the resulting adaptations needed in our societies. These changes will affect our cooperation and connectivity in the region! The conference thus gives the opportunity to a broad range of stakeholders to provide their views in the discussion, such as higher education and research institutions, the private sector, youth, policy-makers and civil society.

But just what will be the role of knowledge in these societies of the future, how will the changes affect the cooperation in the Danube region, and how can our societies adapt?

The conference will focus on the expected transformation of the knowledge-driven society, the implications for the current and future needs of the labour market, and the effect of digital transformation. It will provide a platform for sharing ideas and experiences and identifying emerging trends while engaging strategic foresight perspectives. The event will also aim to foster international collaboration and policy synergies and significantly contribute to the **2023 Slovenian Presidency of the EUSDR**.
