Technical Meeting of the Underground Research Facilities Network for Geological Disposal on Member State Updates and Global Progress in Developing Geological Disposal Solutions

Virtual Event

18–20 February 2025

Ref. No.: EVT2404409

Information Sheet

Introduction

The IAEA Underground Research Facility (URF) Network provides a platform for Member State representatives to assess and share best practices in developing, evaluating and implementing geological disposal solutions for intermediate level waste, high level waste and spent nuclear fuel. Emphasis is placed on the role and use of URFs to support the development and implementation of successful disposal programmes.

In order to achieve its goal and objectives, the URF Network relies on the active involvement of the geological disposal technical community and, significantly, on resource contributions from all those members that own or manage URFs and other research facilities and that have agreed to host training and demonstration activities.

The 2025 virtual Technical Meeting of the URF Network will focus on the global progress in geological disposal programmes including updates in relation to URF facilities. This update will take place on a fully virtual platform. At this meeting, Member States are asked to provide status updates on their URF and geological disposal programmes.

Objectives

The purpose of the event is to share annual updates on the progress of geological disposal programmes worldwide, and current research and training opportunities in URFs.

Target Audience

Members of the URF Network are invited to attend the meeting. The URF Network is open and accessible to representatives working in the area of geological disposal from all Member States.

In general, the meeting is targeted to representatives of organizations with specific responsibilities related to establishing, developing, providing the scientific and technical basis for, and implementing geological disposal projects for radioactive waste.

Working Language(s)

The working language of the event will be English with no interpretation provided. All communications and papers must be submitted in this language.

Expected Outputs

Annualized Member State updates on progress in their disposal programmes for geological repository programmes.

Annualized Member State updates on progress in their R&D programmes planned or implemented in a URF.

List of action items of further interest to Network members.

Structure

This meeting is fully virtual and will commence on Tuesday, 18 February 2025 and will conclude on Thursday 20 February 2025.

Topics

The scope of this meeting is on status updates for geological repository programmes and URF experiments worldwide. Member State representatives are requested to prepare a short country update specific to each Member State's geological repository programme and URF(s) (if applicable) in MS PowerPoint. The updates should be uploaded to the URF website at least two weeks prior to the meeting.

Participation and Registration

All persons wishing to participate in the event have to be designated by an IAEA Member State or should be members of organizations that have been invited to attend.

In order to be designated by an IAEA Member State or invited organization, participants are requested to submit their application via the InTouch+ platform (<https://intouchplus.iaea.org>) to the competent national authority (Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) or organization for onward transmission to the IAEA by **20 January 2025**, following the registration procedure in InTouch+:

1. Access the InTouch+ platform (<https://intouchplus.iaea.org>):
 - Persons with an existing NUCLEUS account can sign in to the platform with their username and password;
 - Persons without an existing NUCLEUS account can register [here](#).
2. Once signed in, prospective participants can use the InTouch+ platform to:
 - Complete or update their personal details under 'Complete Profile' and upload the relevant supporting documents;
 - Search for the relevant event under the 'My Eligible Events' tab;
 - Select the Member State or invited organization they want to represent from the drop-down menu entitled 'Designating Authority' (if an invited organization is not listed, please contact InTouchPlus.Contact-Point@iaea.org);
 - If applicable, indicate whether financial support is requested and complete the relevant information (this is not applicable to participants from invited organizations);
 - Based on the data input, the InTouch+ platform will automatically generate the Participation Form (Form A) and/or the Grant Application Form (Form C);
 - Submit their application.

Once submitted through the InTouch+ platform, the application, together with the auto-generated form(s), will be transmitted automatically to the required authority for approval. If approved, the application, together with the applicable form(s), will automatically be sent to the IAEA through the online platform.

NOTE: The application for financial support should be made, together with the submission of the application, by **20 January 2025**.

For additional information on how to apply for an event, please refer to the [InTouch+ Help](#) page. Any other issues or queries related to InTouch+ can be sent to InTouchPlus.Contact-Point@iaea.org.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Participants are hereby informed that the personal data they submit will be processed in line with the [Agency's Personal Data and Privacy Policy](#) and is collected solely for the purpose(s) of reviewing and assessing the application and to complete logistical arrangements where required. The IAEA may also use the contact details of Applicants to inform them of the IAEA's scientific and technical publications, or the latest employment opportunities and current open vacancies at the IAEA. These secondary purposes are consistent with the IAEA's mandate. Further information can be found in the [Data Processing Notice](#) concerning IAEA InTouch+ platform.

Additional Information

The meeting will take place on Webex and will be forwarded as a calendar invite. If you have any barriers to participate with this program, please kindly reach out to us.
