Training Course for Using the Results of the International Generic Ageing Lessons Learned Programme

**IAEA Headquarters
Vienna, Austria**

11–14 February 2025

Ref. No.: EVT2403756

Information Sheet

Introduction

More than two-thirds of the world's operational nuclear power plants (NPPs) are over 30 years old and it is increasingly recognized that there are economic and environmental benefits in continuing to operate these plants beyond their originally planned lifetimes. This brings an increased interest in, and need for, experience exchange and sharing for ageing management of structures, systems and components of NPPs to ensure that they are capable of fulfilling their safety functions.

The IAEA supports Member States in implementation of ageing management through the publication of related safety standards, providing safety review services to assist in the application of these standards and facilitating information exchange through the coordination of the International Generic Ageing Lessons Learned (IGALL) extrabudgetary programme.

The IGALL programme has been running since 2010 with the objective to develop and maintain a general framework for effectively collecting experience and lessons learned on NPP ageing management. The programme facilitates the exchange of experience accumulated in Member States with regard to the identification, establishment, implementation and improvement of ageing management of NPPs.

At the end of IGALL Phase 6, the Steering Committee of the IGALL programme requested the IAEA to develop and organize IGALL training courses on how to use IGALL results by the Member States in the development, implementation and revision of ageing management programmes and time limited ageing analyses of specific structures, systems and components. The first training course will take place in 11-14 February 2025.

The training covers:

- The relevant IAEA Safety Standards;
- General aspects of ageing and ageing management;
- Use of IGALL programme documents with examples;
- Transfer of experience from experts using IGALL in their practice; and
- Exercises on using the IGALL results.

Objectives

The objectives of the event are to inform and train nuclear professionals to extend their knowledge on specific aspects of ageing and ageing management by using IGALL results and documents.

Target Audience

This event is intended for ageing management experts from NPPs, technical support organizations or nuclear safety authorities of the Member States.

Working Language(s)

English.

Participation and Registration

Nomination of those experts will be accepted who have role and responsibility in development, implementation or oversight of ageing management in nuclear power plants.

In order to be designated by an IAEA Member State, participants are requested to send the **Participation Form (Form A)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) for onward transmission to the IAEA by **29 November 2024**.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Participants are hereby informed that the personal data they submit will be processed in line with the [Agency's Personal Data and Privacy Policy](#) and is collected solely for the purpose(s) of reviewing and assessing the application and to complete logistical arrangements where required. The IAEA may also use the contact details of Applicants to inform them of the IAEA's scientific and technical publications, or the latest employment opportunities and current open vacancies at the IAEA. These secondary purposes are consistent with the IAEA's mandate.

Expenditures and Grants

No registration fee is charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event.

The application for financial support should be made using the **Grant Application Form (Form C)** which has to be stamped, signed and submitted by the competent national authority to the IAEA together with the **Participation Form (Form A)** by **29 November 2024**.

Venue

The event will be held at the Vienna International Centre (VIC), where the IAEA's Headquarters are located. Participants must make their own travel and accommodation arrangements.

General information on the VIC and other practical details, such as a list of hotels offering a reduced rate for IAEA participants, are listed on the following IAEA web page:

www.iaea.org/events.

Participants are advised to arrive at Checkpoint 1/Gate 1 of the VIC one hour before the start of the event on the first day in order to allow for timely registration. Participants will need to present an official photo identification document in order to be admitted to the VIC premises.

Visas

Participants who require a visa to enter Austria should submit the necessary application to the nearest diplomatic or consular representative of Austria at least four weeks before they travel to Austria. Since Austria is a Schengen State, persons requiring a visa will have to apply for a Schengen visa. In States where Austria has no diplomatic mission, visas can be obtained from the consular authority of a Schengen Partner State representing Austria in the country in question.

IAEA Contacts

Scientific Secretary

Mr Martin Marchena

Division of Nuclear Installation Safety
Department of Nuclear Safety and Security
International Atomic Energy Agency
Vienna International Centre
PO Box 100
1400 VIENNA
AUSTRIA

Tel.: +43 1 2600 26080

Fax: +43 1 26007

Email: M.Marchena@iaea.org

Administrative Secretary

Mr Michael Duron

Division of Nuclear Installation Safety
Department of Nuclear Safety and Security
International Atomic Energy Agency
Vienna International Centre
PO Box 100
1400 VIENNA
AUSTRIA

Tel.: +43 1 2600 25558

Fax: +43 1 26007

Email: M.Duron@iaea.org

Subsequent correspondence on scientific matters should be sent to the Scientific Secretary and correspondence on other matters related to the event to the Administrative Secretary.

Participation Form

Training Course for Using the Results of the International Generic Ageing Lessons Learned Programme

IAEA Headquarters, Vienna, Austria

11 to 14 February 2025

To be completed by the participant and sent to the competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA, or National Atomic Energy Authority) of his/her country for subsequent transmission to the International Atomic Energy Agency (IAEA) either by email to: Official.Mail@iaea.org or by fax to: +43 1 26007 (no hard copies needed). Please also send a copy by email to the Scientific Secretary, Mr Martin Marchena, Division of Nuclear Installation Safety, Department of Nuclear Safety and Security (Email: M.Marchena@iaea.org) and to the Administrative Secretary, Mr Michael Duron, (Email: M.Duron@iaea.org).

Participants who are members of an invited organization can submit this form to their organization for subsequent transmission to the IAEA.

Deadline for receipt by IAEA through official channels: 29 November 2024

Family name(s): (same as in passport)	First name(s): (same as in passport)	Mr/Ms
Institution:		
Full address:		
Tel. (Fax):		
Email:		
Nationality:	Representing following Member State/non-Member State/entity or invited organization:	
If/as applicable:		
Do you intend to submit a presentation?	Yes	No
Title:		

Participants are hereby informed that the personal data they submit will be processed in line with the [Agency's Personal Data and Privacy Policy](#) and is collected solely for the purpose(s) of reviewing and assessing the application and to complete logistical arrangements where required.

Grant Application Form

Training Course for Using the Results of the International Generic Ageing Lessons Learned Programme

IAEA Headquarters, Vienna, Austria

11 to 14 February 2025

To be completed by the participant and sent to the competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA, or National Atomic Energy Authority) of his/her country for subsequent transmission to the International Atomic Energy Agency (IAEA) either by email to: Official.Mail@iaea.org or by fax to: +43 1 26007 (no hard copies needed). Please also send a copy by email to the Scientific Secretary, Mr Martin Marchena, Division of Nuclear Installation Safety, Department of Nuclear Safety and Security (Email: M.Marchena@iaea.org) and to the Administrative Secretary, Mr Michael Duron, (Email: M.Duron@iaea.org).

Deadline for receipt by IAEA through official channels: 29 November 2024

Family name(s): (same as in passport)	First name(s): (same as in passport)	Mr/Ms:
Mailing address:		Tel.:
		Fax:
		Email:
Date of birth (yyyy/mm/dd):	Nationality:	

1. Education (post-secondary):

Name and place of institution	Field of study	Diploma or Degree	Years attended from to	

2. Recent employment record (starting with your present post):

Name and place of employer/ organization	Title of your position	Type of work	Years attended from to	

3. Description of work performed over the last three years:

4. Institute's/Member State's programme in field of event:

Date: _____ **Signature of applicant:** _____

Date: _____ **Name, signature and stamp of Ministry of Foreign Affairs,
Permanent Mission to the IAEA or National Atomic Energy
Authority**
